

EMF CONNECTION

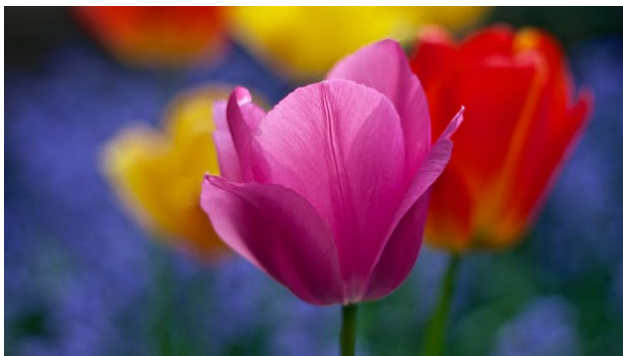

NEWSLETTER

MAY 2020

Welcome!

Greetings and welcome to the new “EMF Connection”. Our goal is to help protect people and keep them safe in our emerging electronic world. The “EMF Connection” will bring you up to date EMF information, recommendations and resources. We believe it will be a wonderful source of advice and encouragement.

Sorry,..

We are temporarily suspending all in home inspections.

We are still available for online inspections and remote help or consultation.

Please contact us for further information or questions.

Fact: Currently there are about 770,000 cell towers in the US with an additional 2 million antenna sites!

Monthly Focus: “Our Immune System”

Electro Magnetic Fields or EMFs are toxic to our bodies. This is proven in thousands of studies and research papers. Like any toxin, they can compromise our immune systems over time depending on the severity and the amount of other toxins we are exposed to.

For further information check out the **EMF dangers** to our Immune system.

 - 3. EMF Aware**- Presentations to interested groups, churches, schools, and EMF seminars.
 - 4. EMF Defense**- A group working to bring change and better protection standards to our world.
 - 5. Discounts**- On products and services for all our previous customers!
- Please contact us** for more information or if you would **like to help** or **be involved** in any of these groups.

THE EMF EXCHANGE

As the world opens back up for social gatherings we would love to meet with all who are interested to exchange ideas, favorite websites, products and things that have worked in our lives and to encourage each other in our journey of health. We could also have some fun, exchange healthy snacks, and have a question and answer time.

Question of the Month

What if our immune system is already compromised because of Lyme, EMFs, or other reasons?

You must be even more diligent to decrease all levels of toxins. It is imperative that you take steps to continue and reduce EMF levels especially with the 5G expansion. You can consider detox options. Of course, nutritious food, water, and supplements are vital. But be encouraged, there are many people who have recovered from very serious health problems. Be patient, for it often takes time to recover. Lastly, be hopeful. Have faith and keep believing for with God all things are possible!
